SuperLife Fleet HD 50/50 Antifreeze

CAM2 SuperLife Fleet HD Truck Prediluted 50/50 Antifreeze

Product Code # 805

Extended Life Heavy Duty Antifreeze/Coolant (ELC)

CAM2 SUPER LIFE FLEET HD TRUCK 50/50 is a versatile, high performance, pre-diluted automotive cooling system product designed for Heavy-Duty Truck application.

CAM2 SUPER LIFE FLEET HD TRUCK 50/50 is formulated using only deionized water and premium glycol and a superior organic acid technology additive package. It is a silicate, phosphate and borate-free formulation for long lasting inhibition and corrosion protection. Protects aluminum and all other engine metals and provides long term, broad-range metal protection, minimizes hot surface scaling, and prevents heat transfer surface fouling due to minor oil leakage. When used in a complete fluid exchange, provides 150,000 miles or 3,000 hours of service protection.

FEATURES:

This antifreeze meets:
ASTM D-3306

Contact your CAM2 representative or CAM2 distributor for additional information.

SuperLife Fleet HD

50/50 Antifreeze

CAM2 SuperLife Fleet HD Truck Prediluted 50/50 Antifreeze

Property	METHOD	Fleet HD 50/50
Product Code:		805
Appearance	Visual	Red
Specific Gravity	60/60 F	1.08
Nitrite (Ppm):		2400-3200
Freeze Pt F		-34
pH	ASTM D 1287	9.4
1:2 Dilution with water		

Dilution with conventional coolants will reduce extended life benefits.

Always consult owner's manual to determine the specific maintenance, change over intervals, and Extender/SCA treat rate for your vehicle.

Contact your CAM2 representative or CAM2 distributor for additional information.
