

PRODUCT BULLETIN

CAM2 De-Icer

Product # 294

CAM2 De-Icer is formulated with high purity alcohols to provide a powerful streak-free protection from the formation of ice, frost, or snow accumulation. The high concentration of high purity methanol provides powerful ice-melting power effectively reducing windshield scraping, and promoting safer driving conditions by protecting against fogging.

FEATURES/BENEFITS

- Melts precipitation to reduce formation of ice and frost to windshields, mirrors, and locks
- Turns snow/sleet into slush even before freezing
- When applied in advance, retards formation of fogging on inside of windows
- Not harmful to rubber, metal, or paint finish
- Contains No CFC's

APPLICATION/DIRECTIONS

- Spray on windshield, mirrors, or other surface
- Wait 2-3 minutes then remove slush with wipers or scraper

TYPICAL CHARACTERISTICS

Active Ingredient	Methanol/ Ethylene Glycol
Propellant	A85 (Propane/Butane)
Flash Point, TCC	52°F
Viscosity	N/A, aerosol
Appearance	Clear colorless liquid

Special handling, notices or warnings

Flammable
Keep away from flame and heat
Use in well ventilated area
Contains contents under pressure
Avoid contact with eyes
