Type A ATF

PRODUCT #370

CAM2 Type A ATF is for service typical of older transmissions calling for Type A ATF performance.

CAM2 Type A Automatic Transmission Fluid is blended from proven performance base oils and is recommended for use in automatic transmission requiring Type A Fluid. Type A is an economical fluid and is recommended for use in older transmissions where leakage and consumption may be a problem. A red dye is added to help detecting leaks by differentiating transmission fluids from other automotive fluids. Type A is not recommended for use where Dexron® or Mercon® fluids are specified.

Always consult your owner's manual for the proper automatic transmission fluid recommendation.
