CAM 2 Aluminum Brightener is a blend of acids and wetting agents designed to clean and brighten aluminum, stainless steel, copper, brass and fiberglass. The fast acting, super concentrated hydrofluoric acid containing cleaner easily removes road film and is safe for use in most standard cleaning equipment. CAM 2 Aluminum Brightener can also be used as an ideal Step 1, low pH acid presoak for aluminum trailer cleaning. Do NOT use on glass, anodized aluminum, or coated wheels. Spot check before use on polished aluminum.

FEATURES/ BENEFITS
- Dissolves grease grime and road film from painted and metal surfaces
- Cleans and brightens a variety of surfaces
- Capable of being diluted for greater economy and controlled brightening rate
- Contains hydrofluoric and hydrochloric acid
- Contains wetting agents to help cling to surfaces

APPLICATIONS
- Clean and brighten trailer bodies
- Can use on other aluminum surfaces
- Cleans stainless steel
- Use on Copper and Brass
- May be used on fiberglass

CONCENTRATION and APPLICATION METHODS

Two-Step Acid / Alkaline Exterior Wash
STEP 1: Apply Aluminum Brightener at 3-4 fl. oz/gal of water, through a low or high pressure sprayer. Allow to soak for 3 to 5 minutes, but not longer than 2 hours.
STEP 2: Apply a high pH detergent, such as Super Power Degreaser, at 6-8 fl. oz/gal of water through a low or high pressure sprayer. Allow to soak. high pressure rinse with clean water.

Wheel Brightening
Spray application is recommended. Dilute to a ratio of 1:5 with water. Spray on and let soak for 2-5 minutes. Brush heavily soiled areas if necessary. Spray rinse with fresh water.

Heavy-Duty Cleaning
Dilute to a ratio of 1:15 with water. Apply under a low pressure sprayer from bottom up. Brush heavily soiled areas if necessary. Allow to soak. Rinse with high pressure water from top to bottom.

SPECIAL HANDLING, NOTICES OR WARNINGS

Use protective clothing, gloves and masks when handling
In case of eye contact, flush with water for at least 15 minutes
Keep away from heat and flame
Very Irritating fumes
Use in well ventilated area
HARMFUL OR FATAL IF SWALLOWED
Do not induce vomiting
Call physician immediately
