CAM2 15W-40 LOW ASH ENGINE OIL is a premium, low-ash heavy duty diesel engine oil designed for use in Compressed Natural Gas (CNG), Liquefied Natural Gas (LNG), Liquefied Petroleum gas (LPG), or Propane engines requiring Cummins CES20074 or Detroit Diesel PGOS 93K16 quality levels.

CAM2 15W-40 LOW ASH ENGINE OIL are formulated with premium high quality Group II base oils and state of the art additives to provide outstanding lubrication to gaseous fueled engines. CAM2 15W-40 LOW ASH ENGINE OIL provides a uniquely balanced premium formulation that minimizes ash deposits, oxidation, nitrification, valve regression and engine wear.

The low-ash content of CES 20074 engine oils are optimized to reduce the formation of "hot-spots" that can lead to increased NOx forming and catalyst poisoning. CAM2 15W-40 LOW ASH ENGINE OIL is specifically formulated to neutralize the acids typically generated during operation of gaseous fueled combustion engines. The shear stable viscosity improver combines to provide excellent stability increasing both oil and engine life.

Field testing has shown that in properly maintained equipment monitored by an in-service oil monitoring program, CAM2 GEO 15W-40 provides outstanding protection over an extended drain interval up to 30,000 miles or 800 hours, whichever comes first. The excellent TBN retention confirmed MB 226.9 capability.

CAM2 15W-40 LOW ASH ENGINE OIL is recommended in mobile applications where compressed natural gas (CNG), liquid natural gas (LNG), liquefied petroleum gas (LPG) or propane is used. CAM2 15W-40 LOW ASH ENGINE is recommended for bus, delivery and service truck fleets.

FEATURES

- Exclusive low-ash formulation with years of proven performance
- Exceptional oxidation and nitration resistance to extend equipment life
- Excellent piston and engine cleanliness
- Excellent neutralization of acidic by-products
- Designed to lubricate naturally aspirated and turbo charged engines
- Strong oil film protects engine against wear and corrosion.
- Can use a variety of fuels: CNG (compressed natural gas), LPG (liquefied petroleum gas), LNG (liquefied natural gas), or Propane
- Low oil consumption with excellent piston deposit control
- Low-ash formulation reduces spark plug fouling, port plugging and pre-ignition
- Catalyst compatible formulation
- High level corrosion protection
- Reduced ash content effectively reduces "hot-spots" extending catalyst life

RECOMMENDATIONS

CAM2 15W-40 LOW ASH ENGINE OIL shows acceptable performance in the following applications:
- LNG/CNG Linehaul truck service
- LNG/CNG Delivery truck service
- LNG/CNG Waste truck service
- LNG/CNG Cement truck service
- LNG/CNG Oil Field truck servicing
- CNG Municipal Bus Service
- Light Duty CNG pick-up trucks
PRODUCT BULLETIN

GEO 15W-40 Low Ash Gas Engine Oil

API CH-4

APPLICATIONS

• Ajax
• Dresser Rand (Clark)
• Fairbanks - Morse
• Cooper Energy Services / BMEP < 85 PSI
• Dresser Rand (Worthington)
